BRONCOSOUL

100% Herbal and natural

Plant Extracts Premix
to Support
Immune and Respiratory
Systems

Product content;

Herbal extracts

Features of the product;

- ✓ It strengthens the immune system and increases body resistance against diseases.
- ✓ It activates the body's natural defense mechanisms.
- ✓ It relaxes the respiratory tract, has expectorant and mucolytic properties.
- ✓ It increases lung capacity and provides more oxygen intake.
- ✓ It ensures better penetration of antibiotics into tissues during treatment, thus supporting more effective antibiotic use and treatment.
- ✓ It supports mucosal protection in the respiratory tract and prevents irritation.
- ✓ It provides relief from respiratory system symptoms (wheezing, etc.).

It opens the appetite mechanism, which is suppressed especially during illness and recovery periods. Thus, it increases body resistance and accelerates the healing process.

Usage;

It is given to poultry at a dose of 1 Lt of product per 1000 Lt of drinking water in every period needed, with 8 hours of daily drinking water for 3-4 days.

Packaging shape;

5 Lt plastic bottle
